

Projets de Recherche

Choisir et positionner la gommelette correspondant à votre projet sur la carte des actions thématiques du Labex ci-dessous.

Une gommelette peut être positionnée à l'interface entre plusieurs WP. Sa taille et sa forme peuvent être modifiées.

(cf modèle : http://mycor.nancy.inra.fr/ARBRE/?page_id=5233)

Forest Economics		Scientific mediation
<p>WP4 : Meso-and macro-scale models, tools and options for decisions on environmental services</p> <p>4.1 - Building Biodiversity Indicators Taking Economic Constraints into Account</p> <p>4.2 - Building Economic Instruments Adapted to the Indicators</p>		<p>1 – For students and educators</p> <p>2 – For professionals in the forestry sector</p> <p>3 – For other audiences</p>
Integrative Biology	Ecology	Wood Sciences
<p>WP1 : Integrative Biology and Tree-Microbe Interfaces</p> <p>1.1 - Deciphering Tree-Microbe Interactions</p> <p>1.2 - Understanding Root Development and Functions</p> <p>1.3 - Characterizing Redox Pathways in Trees</p>	<p>WP2 : Forest Function & Dysfunction</p> <p>2.1 - soil microbial biodiversity and forest ecosystem functioning</p> <p>2.2 - Coupling biogeochemical cycles and forest adaptation</p> <p>2.3 - long term evolution of forest ecosystems – Future distribution of tree species</p>	<p>WP3 : Wood Products & Properties</p> <p>3.1 - Wood durability and biodegradation</p> <p>3.2 - Innovative Green products</p> <p>3.3 - Support to decision tools for a Sustainable Use of Forest Biomass</p>
